**Technical Pre-Qualification Criteria for Constant Pressure type Brush Holders for Traction Alternators**

The Pre-Qualification Criteria for Constant Pressure type Brush Holders to drawing no. 24302076001 rev.03, 34302076001 rev.03 & 34302076004 rev.03 are as under

1. Brush holders should comply with the respective drawing nos. 24302076001 rev.03, 34302076001 rev.03 & 34302076004 rev.03. Clause by clause confirmation/comments regarding compliance of drawing details and corresponding specification is required.
2. The firm must have adequate manufacturing facilities at their works/in-house for manufacturing this material, exactly as per the above mentioned drawings and technical specifications.
3. Testing facilities required to conduct all the tests as per above drawings & specifications must be available with the firm, preferably in-house. List of outsourced facilities may be submitted. Outsourced labs/firms should be NABL accredited.
4. The firm should have at least 3 years manufacturing and supply experience of same/similar material to some reputed motor / alternator manufacturers. The proof of the same (PO Copies) with supply experience to be attached.
5. Vendor to disclose the type/grade/source of the spring material and Brush holder body used.
6. Production capacity of the firm for this material per month/annum to be submitted.
