BHEL –Bhopal required supplier of calcium carbide

1. BHEL Bhopal seeks manufacturers/stockists/traders for supplying calcium carbide as per following details :

Calcium Carbide, Technical, Quality B, as per IS-1040 (2003), gas yield 288 lit/kg (min.) graded size 25 to 50 mm.

2. With this , BHEL intends to short list the qualified parties for participating in the tender for supply of calcium carbide.
3. All the new vendors, who are not registered with BHEL, Bhopal as per BHEL's record should submit duly filled up Registration Form which can be downloaded from BHEL website –

["www.bhelbhopal.com/bhel_bhupal_vendor_registration.htm"](http://www.bhelbhopal.com/bhel_bhupal_vendor_registration.htm)

4. Based on the filled up Registration Form, BHEL shall assess the new vendors. If felt necessary, BHEL may also collect business information about the vendor from other independent agencies and BHEL's representatives may visit to the vendor's works for further assessment and evaluation, if required.

Qualifying conditions :

5. Only those parties should respond to this notice who had supplied atleast 100 MT per year calcium carbide of quality as required by us during last three years.
6. All the relevant documents in support of the para 3 above shall be attached along with the application.
7. List of customers along with contact details to be furnished.
8. The following must be acceptable to interested parties :
 - Pre-Despatch inspection & testing of material may be carried out at manufacturer or vendor works by BHEL representative. If pre-despatch inspection is not carried out at manufacturer or vendor works then testing and inspection will be done at our works' to ascertain the quality and results must be acceptable to supplier.
 - After testing if the gas yield is found to be less than 288 lit/kg (upto 274 lit/kg) then material will be accepted but basic price of calcium carbide shall be reduced as follows –
% Reduction in basic price : $3 \times \frac{(288 - GY)}{288} \times 100$; where GY = Gas yield obtained in lab
288
 - The gas yield below 274 lit/kg shall not be acceptable and material will be rejected. Further supplies from the vendor will be stopped and balance quantity will be awarded to other supplier
 - In case of any dispute w.r.t. to quality (size, gas yield, etc.), report of inspection & testing at our works' shall be final.
